

Recommended Personal Protective Equipment (PPE)

The following items are recommended protective items to be used during shower glass installation and/or handling. Always follow OSHA requirements, which may vary - consult local, state, and federal guidelines for more information.

Safety Glasses and Hard Hat

over glasses, goggles or safety-approved glasses with side shields

Cut Resistant Sleeves

or a resistant pullover

Cut Resistant Liners

in tandem with cut resistant gloves

Cut Resistant Chaps

to be worn over slacks (no shorts or sweatpants)

Metatarsal Boots

or metatarsal guards laced onto steel-toed footwear
